MOSMA
a SOUND education

AUDIO ENGINEERING DIPLOMA

MID-OCEAN SCHOOL OF MEDIA ARTS

CURRICULUM

TERM ONE

AUDIO CONCEPTS & TECHNOLOGY

This term equips students with a solid understanding of the concepts and tools necessary to capture and manipulate quality sound. It evolves from theoretical discussion and demonstration by the instructor to student practice.

TERM TWO

MENTORSHIPS & PRODUCTION INTENSIVES

Students move into Audio Production Mentorships gaining advanced training and networking from professionals in the industry. Mentors will guide students through their area of expertise demonstrating current production techniques and offer valuable insight to their field of practice. Through production intensives students take their learned knowledge of concepts & technology and apply them to more specialised fields of audio production each to be evaluated.

TERM THREE

ELECTIVES & WORK EXPERIENCE

Students choose two areas of audio production in which they conduct more demanding and focused projects. This term also includes work experience with one of MOSMA's industry partners. In the final week of the programme, industry lecturers will guide students in portfolio development and career planning.

DISCIPLINES

**SOUND FOR
FILM, TV, GAME AUDIO**

MUSIC PRODUCTION

LIVE SOUND REINFORCEMENT

RADIO PRODUCTION

We train our students for careers in the industry; this means our graduates must be prepared to enter the industry competitively. With focused training in multiple fields of audio production, concentrated mentorships with industry professionals and comprehensive work experience with our industry partners; MOSMA grads possess a vigorous work ethic, are well practiced, are qualified and work-ready with industry standard certification.

ABOUT US

MOSMA offered its first full time programme and part time courses over 24 years ago and has trained students from all over Canada and around the world. Classes are focused where students benefit from small class sizes offering ample time for hands-on practical training and individual attention from faculty and mentors. Our resources are always available to students during their studies and throughout their careers.

MOSMA is the only long established Audio Production Institute in the Central Prairies and our growing industry looks to us for audio talent. Become part of a vibrant industry. Be a MOSMA Grad.
