

Evolve Surface Strategies Inc. is a multi-disciplined acquisition company proudly offering Surface Strategies for land acquisition and community engagement services. We are an active and growing firm currently servicing various industries across North America including renewable energy, oil and gas, utilities, transportation, telecommunication and general land access.

We are about people, expertise, and the ability to innovate together, moving ahead for tomorrow while engaging communities today. Our firm is made up of a diverse team that creates a vibrant and energetic atmosphere to be a part of. We have a desire for people to join our team that possess strong social awareness and respect the perspectives of others, while maintaining a continuous focus on our team goals. As a continually growing and diversifying organization, Evolve offers exciting challenges for qualified individuals who wish to work in an energetic environment.

**Profession: Surface Land/ Right-of-Way Administrator (Brandon, Manitoba)**

**Looking for a change?**

Have you ever been driving and catch a transmission line, cell phone tower, oil well or pipeline and wonder “How did this all get built?”

Have you ever seen a highway widening or a wind and solar farm being constructed and wonder “How that was possible?”

Well the answer is that right of way and surface acquisition professionals are an essential contributor in various infrastructure and resource projects around the world. We are the ones who roll up our sleeves to make the way for key infrastructure and land access initiatives in the renewable energy, oil and gas, utilities, transportation and telecommunication industries.

As a Surface Land/Right-of-Way Administrator you will have the opportunity to learn just how dynamic and exciting this industry can be by being a key contributor on projects for our clients. You will research, organize, print and review along with so many other task varieties that come with the Land Administrator career.

We pride ourselves on making a positive impact to our economies and our communities by engaging all key stakeholders involved in a variety of projects with professionalism and integrity. We are looking for a motivated, organized and passionate individual that is seeking a new career in an impactful and exciting industry. We want team members that seek innovation and rise to any challenge.

**What we offer**

- People focused culture that puts a focus on internal development and growth
